Certain restrictions may apply if there is a scheduled foreclosure sale date. The owner of your loan does not offer loss mitigation options to borrowers who submit applications less than the applicable number of days before a scheduled foreclosure sale explained here. Generally, all documents required to complete your loss mitigation application must be received more than thirty seven (37) days before a scheduled foreclosure sale in order for you to be eligible for loss mitigation options. Please note, however, that certain states have established additional loss mitigation requirements for properties that are a borrower's principal residence. For such properties located in the state of Washington, all documents required to complete a loss mitigation application must be received at least fifteen (15) days before a scheduled foreclosure sale in order for a borrower to be eligible for loss mitigation options. For such properties located in the state of Nevada or Minnesota, all documents required to complete a loss mitigation application (substantially complete for Minnesota) must be received at least seven (7) days before a scheduled foreclosure sale in order for a borrower to be eligible for loss mitigation options. For such properties located in the state of California, all documents required to complete a loss mitigation application must be received at least five (5) business days before a scheduled foreclosure sale in order for a borrower to be eligible for loss mitigation options. If a complete (substantially complete for Minnesota) loss mitigation application is not received by the dates identified in this paragraph, you will not be eligible for any loss mitigation options and the foreclosure sale may proceed. **Please note: Documents received after 4:00 pm CST on any Business Day*** will be deemed to have been received on the next Business Day.**
